

## graphic designer / multimedia integrator

field	e-learning - biology courses
location	Banyuls-sur-Mer (France)
compagny	Sorbonne Université - Erasmus + programme
job statut	full time
type of contract	temporary (1 nov 2018 to 31 aug 2021)
application deadline	8 oct 2018
contact persons	Agnès BOUTET ( <a href="mailto:agnes.boutet@sb-roscoff.fr">agnes.boutet@sb-roscoff.fr</a> ), Yves Desdevises ( <a href="mailto:desdevises@obs-banyuls.fr">desdevises@obs-banyuls.fr</a> ), Raphaël Lami ( <a href="mailto:raphael.lami@obs-banyuls.fr">raphael.lami@obs-banyuls.fr</a> )

A graphic designer is required for the European-funded project *Digitalmarine* (Erasmus + programme). *Digitalmarine* is a strategic partnership gathering several European and non-European universities to develop online distant resource related to the use of marine models in life science for master students. The creation of digital learning tools on an online platform will contribute to the advancement of new teaching methods such as flipped classroom.

### The required graphic designer will have specific roles

- digitalize teaching lessons and enrich them with videos, graphic designs in a way to highlight practical approaches
- create and design educational animations for master students.
- be in charge of this in relation with the scientists involved in the partnership under the supervision of an educational engineer

The creation of story-boards will be necessary to communicate with the team working on the platform, to detail 2D modeling of scientific content in a rigorous and realistic way. In a second time, the recruited person will have to implement the graphic design using html5/css3 technologies and/or javascript

### Skills required

Good knowledge in software: Flash, Illustrator, Photoshop, Dreamweaver, ...

Good knowledge in programming languages: html 5, css3, javascript

Basic knowledge in video shooting

Know how to convey a message to very diverse public

Good relationship skills

Rigor, attention to detail, ability to work in a team, interest in life science

Fluent English
